Figure 1. A schematic diagram of the experimental setup. The subject is seated in a chair, viewing a screen displaying a target. The target is a small black dot. The subject's hand is positioned at the starting point, and the distance between the starting point and the target is indicated by a horizontal line. The subject is instructed to move their hand towards the target. The distance between the starting point and the target is 10 cm. The subject is instructed to move their hand towards the target at a constant speed. The distance between the starting point and the target is 10 cm. The subject is instructed to move their hand towards the target at a constant speed. The distance between the starting point and the target is 10 cm.
