STATE HIGHWAY DEPARTMENT
24 WOLCOTT HILL ROAD, WETHERSFIELD
P.O. BOX 2188, HARTFORD 15, CONNECTICUT

February 23, 1960

Mr. Winfred W. DeMay
City Engineer
City Hall
550 Main Street
Hartford, Connecticut

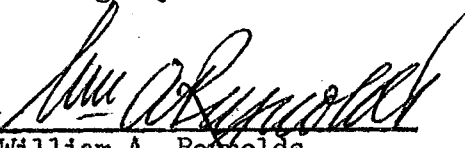

Dear Mr. DeMay:

Pursuant to your recent request I am enclosing herewith photostat copies of the cards describing all Connecticut Geodetic Survey stations situated in the City of Hartford with the exception of two recently established stations adjacent to station "Fuller" of the H. C. M. D. survey. Copies of the descriptions of these stations will also be forwarded to you at an early date.

We appreciate your cooperation in helping us maintain these stations. Should any of them lie within the path of projected city work we shall be glad to have them relocated upon receipt of word from your office that such relocation is required.

Very truly yours,

Howard S. Ives
State Highway Commissioner

By 
William A. Reynolds
Engineer of Boundary Surveys
